Introduction
Academic year 2019-2020 is the first year of College of Marin’s first three-year cycle of strategic planning for the *Educational Master Plan 2019-2025* (EMP). The strategic plan uses primarily quantitative performance indicators, baselines, and targets to gauge improvement and determine if objectives are met.

This report is based on the Educational Planning Committee’s (EPC) progress tracking in December 2019, January 2020, and February 2020. Champions for each EMP goal provided written and oral reports to the EPC and self-evaluations of progress. The EPC then also evaluated the progress on each objective based on those reports. Color coding is used to rate the extent to which activities designed to achieve the objective were implemented: red (no progress), yellow (substantial progress) or green (objective is achieved).

In this report, the ratings are organized by EMP Focus Area. Each EMP goal is shown with performance indicator data and a link to the full progress report if available; the 3-year objectives are shown with the activity progress indicator (red, yellow, green).

Full progress reports on individual EMP goals can be found on the [EMP Progress Tracking Tool](#) as well.
