

APRIL 16TH, 2021 - 2:23PM

COMMUNITY, EVENTS, FEATURED, FROM THE PRESIDENT'S DESK

On May 1, 2021, College of Marin (COM) will have its yearly College Success Saturday for graduating high school seniors. The event will provide students with everything they need to be at the front of the line to register for their classes this fall.

This is the second year the event will be held virtually. It was so successful last year, COM plans to always have a virtual option for students in the future.

Register today for College Success Saturday! The sooner you register, the sooner you can complete what you need to register for classes.

High school students who attend this event will learn everything they need to know about registering for classes. Academic counselors will offer short drop-in appointments and Student Ambassadors will assist students in setting up their MyCOM Portal and email which is how the College will communicate with them.

Another important part of College Success is that each student who has completed the necessary steps of developing a Student Educational Plan and the College Success Orientation will be given Priority Registration which allows students to get in front of the registration line, and get into the classes they need. While it's not a guarantee, it gives students a big leg up, especially with getting into general education classes new students often need that fill up quickly.
